Goals and Objectives for the Otolaryngology-Head & Neck Optional Elective Rotation

Approval Optional Elective Form

Resident PGY4 ________________________________

Length of time and dates ________________________________

Location __ ____________

Supervisor (s) ________________________________

During the fourth year of their residency training the resident will have the option to do a four-week elective rotation block. The purpose of this elective is to give the resident the option to explore for a possible application into fellowship or a job into community. This elective must be scheduled before the month of April of the academic year. We advise the resident to plan this rotation ahead of time in order to make the appropriate decision and give it some consideration to the rationale of the elective. All faculty teachers and the Program Director are available to help or advise the resident with his/her elective option. The elective/community rotation approval form needs to be filled and signed by the McMaster Otolaryngology Program Director and the rotation Supervisor prior to its commencement. All residents must make a list of their learning objectives and review them with the McMaster Otolaryngology Program Director and the rotation Supervisor(s) at the beginning and at the end of the rotation to facilitate meeting the objectives.

The Goals and Objectives must include some of the 2015 CanMEDS roles as outlined by the Royal College of Physician and Surgeons of Canada. These roles of competencies are organized into domains of Medical Expert, Communicator, Collaborator, Leader, Health Advocate, Scholar, and Professional.

Call:

The resident may be expected to take part in on call duties, either at the sponsoring hospital/institution or at HHS/St Joseph’s Health Centre. Call will be set according to PARO guidelines.
Overall Objectives:

It is recognized that the resident may not be exposed to all elements of these objectives; however at the conclusion of the rotation the resident should demonstrate knowledge or competency in the following:

Specific Objectives:

Medical Expert

The resident is expected to learn how to:

Knowledge Basic sciences and anatomy:

Knowledge clinical:

Surgical:

Communicator

Collaborator

Leader

Health Advocate

Scholar

Professional
Approval of the PGY4 optional community/elective rotation
